

# HLF 4600 CD

## Cold Dispenser

The 4600 CD is able to dispense cold fresh juices in less than 5 seconds. Thanks to an innovative system "air stop" and to a powerful compressor, the 4600 CD is perfect for Hotel's breakfast rooms. The 4600 CD technology allows the implementation of fruit juices with concentration ratio from 1:5 to 1:20. Even juices with pulp inside can be used in the 4600 CD thanks to the large valves opening. This solution allows to dispense juices with incredible real taste.

# HLF 4600 CD

Cold Dispenser

## Connections

Voltage / Total power [120 Vac - 250 W] or [220/240 Vac - 250 W] 50 / 60 Hz

Water connection 3 / 4 Gas

## Dispensing times

Water flow 24 l / h a 230V

Drink ( 200 ml ) 6 sec. ( 540 Cups / h )

## Technical characteristics

Compressor Gas type R 134 A

Peristaltic pump 30 Rpm

Pressure regulator From 0 to 6 bar

## Features

N° of selections UP To 4 + Cold Water

N° of preselections (Type) 1 ( Caraffe )

Concentrated Juice time Independently adj .

Water time Independently adj .

Pulse dosing function

Electronic drink counters

Automatic cleaning cycle

Drink water temperature adj .

## Containers

N. of bag in box UP TO 4 ( 7 Lt max each )

Drip tray 1 Lt

## Optional s

Cup raiser

Cup sensor

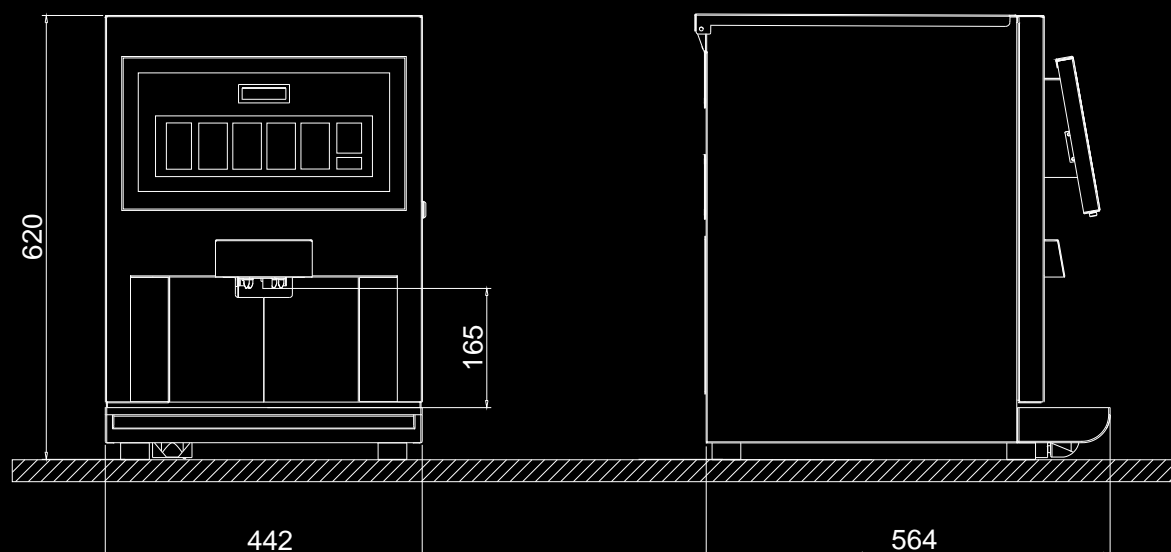

Cash box

Modem kit

## Dimensions

W / D / H 442 / 564 / 620 mm

Weight 45 Kg
